SVEC/Nov/2019

Date: 18/11/2019

Minutes of the Governing Council meeting held on 18-11-2019

Governing council has been called for and the meeting has been convened with the members and the minutes are as follows:

1. The Governing body suggested for enhancing the level of institution. In this regard, it has been proposed to stick and adhere to the date of submission of application for NBA. The proposal was resolved and approved for the submission of application.
2. It has been decided to apply for the closure of the M.Tech-Power Systems in the department of Electrical and Electronics Engineering.
3. It has been proposed and suggested to take necessary steps to start Centre of Excellence in collaboration with IBM from next academic year.
4. To review and procure the equipments necessary for the establishment of new labs as per the guidelines of JNTUA for the current regulation R19.
5. After reviewing the current level of students, it has been decided to start more student centric clubs as well as to give skill based training with support of APSSDC.
6. Additional space has been provided for the establishment of new drawing hall and workshop for the current academic year.
7. The council took an initiative to approve additional infrastructural facilities needed for any activities as per the norms of NBA.
